

CERA-5™ Ceramides

# The FIRST Oral Moisturizer

## / BEST in the World !

A revolutionary approach to anti-aging supplement. Strengthen your cells and allows your skin to retain more moisture naturally!

## Maintain Moisturized Skin from the Inside Out.

### Protect 100% of your Skin Terrain

Cera-5™ is a powerful skin-hydration promoting food supplement that is developed to provide an endogenous (body self-producing) **NATURAL MOISTURIZER** for the whole body and to provide a **SHIELD** from daily insults to our skin.

When you have dry skin. Your skin is tight, flaky in spots and appears dull, especially your hands, cheeks and around your eyes. **Severe dry skin may lack elasticity**, which accentuates **fine lines and wrinkles**. And for some people, it itches, burns and cracks!

Your skin is comprised of **40% ceramides**. This is the structure within your cells that allows you to retain moisture. The stronger your cells, the more **moisture** they can hold and **smoother, softer and more supple** your skin looks and feels.

# The Scientific Revolution Inside Cera-5™

Cera-5™ contains cutting edge food ingredients that are derived 100% from natural food sources that are validated by clinical studies to confer skin protection and age-defying properties.

## C Ceramide ORYZA®

- Nourishes skin from within
- Strengthens skin barrier against pollutants
- Makes wrinkles disappear
- Helps the body generate younger, whiter skin
- Locks moisture into the skin

## R R-Lipoic Acid RALA™

- Pure-form lipoic acid (no synthetic S-Lipoic Acid)
- The only fat- and water-soluble antioxidants
- Synergistically recycles various antioxidants
- Helps the body generate younger, whiter skin
- Improves detoxification and exfoliation process

## A Astaxanthin AstaREAL®

- Most powerful natural antioxidant in the world
- Significant UV protection
- Wide spectrum anti-inflammatory
- Increases endurance & workout performance
- Promotes heart health & good circulation

## L Lychee Seed Extract Takara-LC™

- Subtly smoothens wrinkles
- Stimulates collagen production and inhibits collagenase for fuller, younger skin
- Inhibits tyrosinase for whiter skin

## FAQ

### What is the difference between ceramides in cosmetics and in Cera-5™?

Firstly, Cera-5™ restores your ceramide levels from within, which allows your body to repair itself. Topical cosmetics only penetrate the first few layers of your skin and quickly wears off. Secondly, Cera-5's patented Cera-5™ is longer lasting and better absorbed by the body due to the production processes used.

### I like tanning and I don't want fairer skin!

The whitening process is just your skin healing itself. Ceramide supplementation will still allow your skin to tan, and in fact reduces the damage your skin receives from tanning. You will find that by using Cera-5™ your skin doesn't feel so dry or wrinkly after hours spent in the sun.

### Will I still need to use makeup when I'm using Cera-5™?

While Cera-5™ does improve the quality of your skin, makeup is entirely your choice to put on. Cera-5™ is perfectly safe to be used alongside conventional cosmetic products.

### Is Cera-5™ safe for pregnant women?

While ceramides and lychee seeds are safe, natural products that can be ingested by almost anyone, you should ask your doctor about it before beginning supplementation of any kind.

### What makes Cera-5™ special compared to other ceramide supplements?

Cera-5™ contains a patented strain of ceramide that has a better absorption time and a longer duration of effects. Cera-5™ also combines high quality lychee seed extract in one capsule for increased effect. All the ingredients are sourced from GMP-approved factories.

### How long does Cera-5™ effect lasts?

The effect of Cera-5™ will typically last for a month or more, depending on your lifestyle choices such as sun exposure, diet, and stress. This is because ceramide stored in your body are continually used over time.

### Will Cera-5™ causes Water Retention?

Nope. C-5 will only strengthen the integrity of your skin barrier to protect from external threats and to prevent your skin from drying. People suffers from water retention due to weak kidneys. Not because of the water they drink before going to bed.

### Can i consume Cera-5™ together with Ag-Factor™? and how?

Take 2 Capsules of Cera-5™ at the morning and 2 capsules of Ag-Factor at night. everyday or you may consume both for the first 3 months, followed by rotation of each on monthly basis.

### What is the difference between consuming Ag-Factor™ and Cera-5™?

Let's talk about primary effects here. Ag-Factor™ is for skin beauty—healthier skin tone and brighter skin. Cera-5™ is for those who suffered from dry skin as a result of genetic inheritance or those approaching menopause. And Cera-5™ is good for those who suffered from excessive oiliness. Do you know what causes excessive oiliness? It is the dryness.

### How is Cera-5™ time-saving?

Think of how much time you can save if you don't need to apply lotions to your face, neck, body (trunk), hips, legs, arms, wrists, hands, and that big piece of skin at the back which you can't reach. Time yourself with a stopwatch if you continue to dispute this.
